Forecast For Southwest England
Issued by Met Office Exeter
at 1600 on Thursday 16 Sep 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Dry at first, rain arriving Friday for most.

This Evening and Tonight:
Variable cloud throughout the evening but thickening in the west overnight. A dry night, with occasional fog patches forming under the clearer skies further east. Becoming windy around Cornish coasts. Minimum temperature 10 deg C (50 deg F).

Friday:
Cloud and rain, mostly light, will slowly track northeast from Cornwall in the morning to Gloucestershire by evening, with brighter skies either side of this. Murky with occasional rain overnight. Maximum temperature 21 deg C (70 deg F).

Outlook for Saturday to Monday:
A wet weekend with rain and showers, possibly heavy, throughout. Still some showers around on Monday, but lighter and more scattered. Warm in any brighter spells in between.
